VISION

The values that we stand for are: professionalism, stability, responsibility, trustworthiness.

High quality products and service are a matter of course for us.
“Our goal is to change our position as the No. 1 European manufacturer of swimming pool enclosures to the No. 1 in the world,”
says Chairman of the Board Jaroslav Smetana.

The company was founded in 1990
100% owned by the Smetana family
350 professionally trained employees
Over 50,000 square metres of production and storage facilities

Global distribution B2B

We import to 93 countries on 5 continents.

We work with the best modern materials
from reputable suppliers in Western Europe.
Our products are therefore characterised by strength,
high durability and health standards.

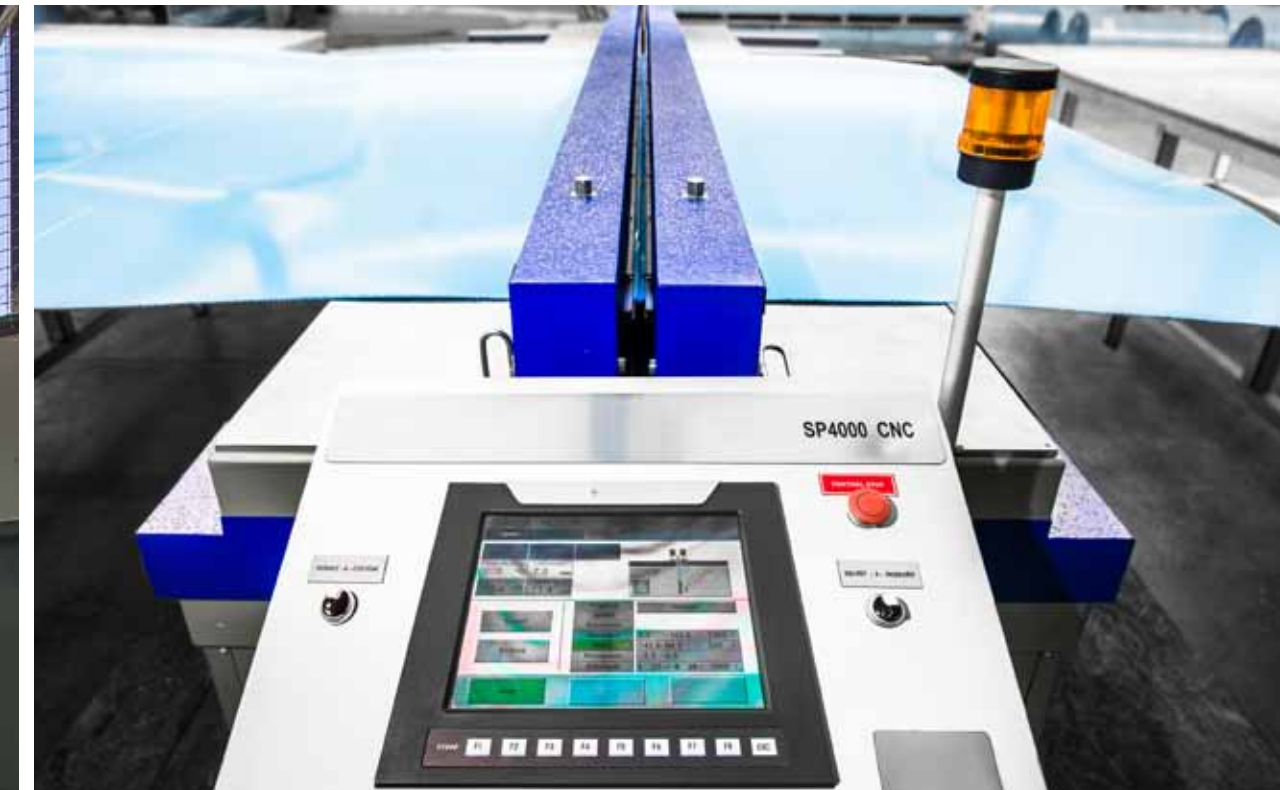

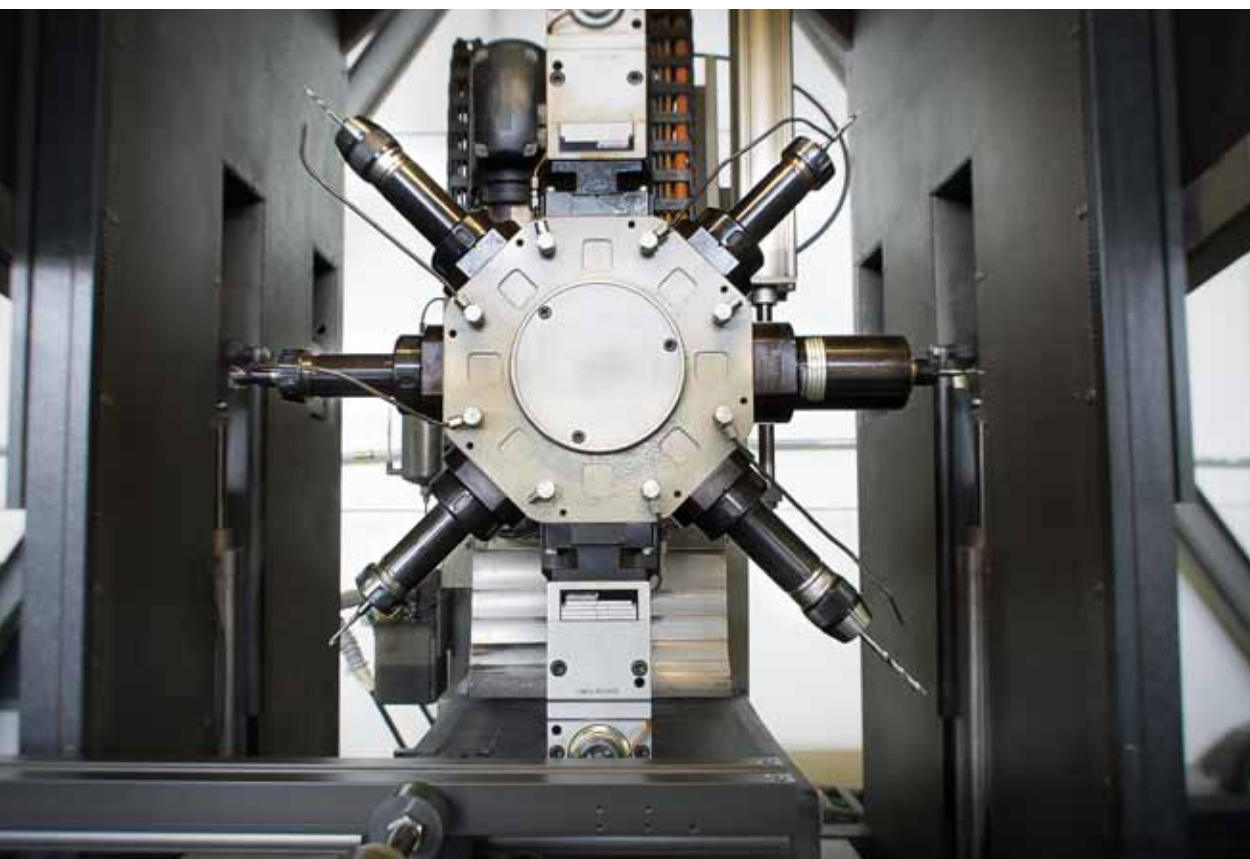

We can **cover the world!**

Our development centre constantly monitors the latest trends in technology, design, safety and environmental protection. Thanks to our own production plants we can supply quality and technically sophisticated products to the market.

Quality and a high standard of production is guaranteed by the use of the **latest technologies** in production (CNC, machining centre).

We have our own warehouses
with supplies of a minimum of **500 tonnes of aluminium**
and **400 tonnes of polycarbonate.**

We can **cover the world!**

The minimum design limits allow us to produce any shape and size of swimming pool or enclosure in accordance with the applicable certifications. That is why we are able to adapt the products in our offer according to the wishes and requirements of our customers.

The ALBIXON BOX product provides a unique **competitive advantage for serial production**. Thanks to this we have become pioneers of standardisation in the field of swimming pool technology.

SKYTRIUM

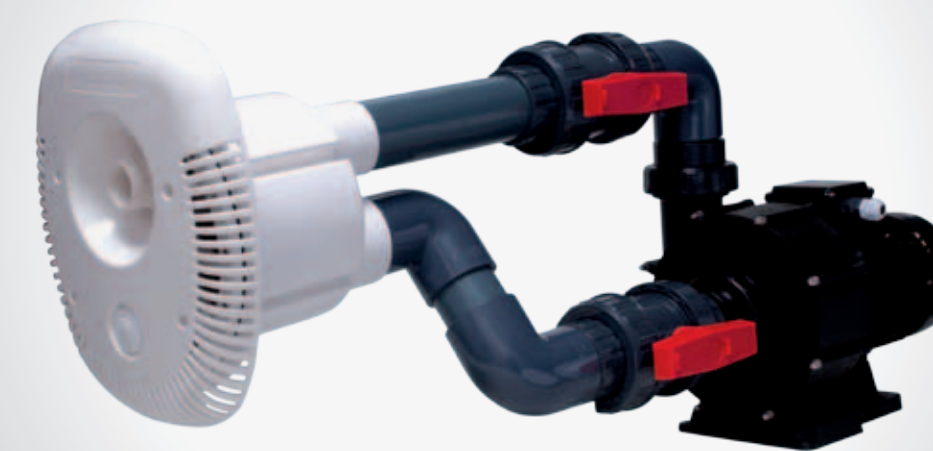

25 years experience of working with aluminium

Design solutions for the home and garden
Easy and quick assembly thanks to the use of
aluminium and polycarbonate fillings.
25 years experience of working with aluminium

We can **cover the world!**

Our offer also includes our own **BRILIX** brand high quality swimming pool accessories. We sell up to **3,000** heat pump units a year. We offer our partners high quality and above standard business terms and conditions over the competition.

BRILIX swimming pool accessories are
always in stock and ready for you.

Powder coating

We operate our own **powder coating plant which is the largest in Central Europe** and has the unique **DECORAL** technology. In addition to standard RAL colours, we are able to decorate any material patterns (marble, wood decor, jeans etc.).

WASTE WATER TREATMENT PLANTS

Waste water treatment plants bring customers cost savings in water consumption. Our products utilize years of experience and the revolutionary material **ALBISTONE®** and water purification processes.
