Pumps, Filters  
& Heating

# Clever-Pool Pump Inverter

- Four default settings:  
Low RPM (1200)  
Medium RPM (1800)  
High RPM (2100)  
Backwash (2800)

- Manual mode allows finer adjustment of pump speed
- Four timing periods allow different pump speeds to be automatically used at different times of day
- LCD screen showing motor speed and timings
- 2.5m cable to pump / 90cm cable to plug

## Clever-Pool Pump Inverter

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K CPI001	Clever-Pool Inverter	349.00

- Up to 80% savings on pool pump energy consumption
- Simple installation
- Manual and Auto Mode
- Compatible with 95% of single speed pumps up to 1.5hp
- User friendly Control Panel

- Reduced wear and tear on your pool pump
- Reduced noise levels
- Improved filtration
- Set reduced speeds on your pump

## Capital outlay payback in under 12 months

### Typical cost of running a 1hp pool pump continually for 1 month (30 days)

Energy consumption per month..... 732kWh  
Price per kWh of electricity ..... 14p per kWh  
**Monthly expenditure ..... £102.51**

### Typical monthly running cost for the same pool with same pump linked to a Clever-Pool

Energy consumption per month..... 281.03kWh  
Price per kWh of electricity ..... 14p per kWh  
**Monthly expenditure ..... £39.34**

**Savings per month = £63.17**

Approximate capital outlay for Clever-Pool supplied and installed by a professional pool company ..... £540.00

The calculations shown are based on the following assumptions:

Pool pump is 1hp (0.746kW).

Output - 1.02kW Input - 73%

Illustrated calculation is based on Clever-Pool operating at the following parameters:

19 hours per day at 1,200rpm pump speed 173.91kWh per month

1 hour per day at 1,700rpm pool pump speed ..... 17.63kWh per month

4 hours per day at 2,100rpm pool pump speed ..... 89.50kWh per month

Figures may differ due to variable parameters, eg cost of kWh of energy, efficiency of pool circulation pump etc. Above figures based on a 30 day month.

All costs quoted include VAT

# Filtration Control Panels

- Switches pump on when the water falls below set temperature
- Supplied complete with temperature probe
- Digital display of temperature
- Low and high set point are adjustable (on/off)

## Frost Stat

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K DHG-2	Frost Protection Thermostat Controller	106.00

- Compact design
- Fitted time clock for filtration pump
- Suitable for .75hp to 1hp pumps as standard
- Option to supply circuit breaker for pumps up to 3hp
- Built-in 100w 12v Transformer for LED lights

## In Ground Control Panel

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K PI310ID	Control Panel Filtration + Transformer 100w (in-ground)	192.00

- Compact design with wired remote time clock for small plant room
- Suitable for 0.75hp to 1hp pumps as standard
- Option to supply circuit breaker for pumps up to 3hp
- Built-in 100w 12v transformer for LED lights

## Control Panel

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K PI31014LTEID	Control Panel (filtration + 100w transformer)	244.00

NB: Panel should be mounted inside

## Circuit Breakers

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K GZ1M07	1.6 - 2.5amp (0.33hp = 2.2amp)	25.60
K GZ1M08	2.5 - 4amp (0.50hp = 3.12amp)	25.60
K GZ1M14	6 - 10amp (1.5hp = 7.6amp)	25.60
K GZ1M16	9 - 14amp (2hp = 10.4amp)	25.60

The above circuit breakers are to replace the standard units supplied with PI31014LTEID and PI310ID Control Panels. The adjustable dial must be set to the correct amp setting, in correspondence with the pumps registration plate.

# Plastica Argonaut

- Maintenance friendly
- Silent running
- Self priming up to 3m
- 2" suction, 2" delivery
- Stainless steel AISI 316 shaft
- Clear PC tank cover and large strainer basket
- PP tank, high chemical resistance
- Can be used with salt water up to a concentration of 0.4%

Pumps, Filters  
& Heating

- ClearPro® is a patented technology by Pentair to reach a very fine level of filtration. Somewhat four times better than with a conventional sand filter (about 10µ vs 40µ)

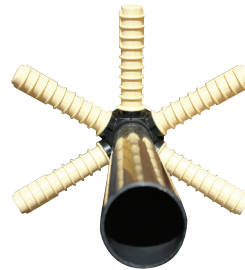

## ClearPro Technology®

- This purity is achieved thanks to new porous laterals.
- The laterals act like additional filters creating an extra barrier against the finest particles.
- As a result, the water is crystal quality
- ClearPro® approaches DE filter clarity with sand functionality.

# Tagelus®

- One piece reinforced fibreglass tank
- Valve can be fitted in any position
- Easy drainage

★★★★★  
5 star incentive program

The Partners Incentive Program is a rewards platform to provide our channel partners with the most innovative products available, intuitive marketing tools to build your customer base, stellar customer service, and sales incentives to help your business grow.

With the Partners Incentive Program, you can earn rewards based on the equipment and systems you sell. As a loyal member of the Partners Incentive Program, you will discover an extensive array of exciting rewards to choose from such as trips, merchandise, and much more!

The more you sell, the greater your reward. And selling combinations of four or more product categories gives you additional incentive opportunities.

**GET  
PIP  
POINTS**

So, go ahead and enroll. We have created rewards program tailored to your business

## Who can join?

This program is only for builders, retailers and service companies in the swimming pool industry.

## How does it work?

We want to encourage pool professionals to sell our equipment, and in turn, we want to reward them for their efforts. For every sold product they can earn points, which can be redeemed at the end of the year against all sorts of gifts.

## How to get points?

Attached to our products, there is a program card. By returning this card to us, the dealer will get the points.

## What are the gifts?

PIP program members can earn a fabulous trip to 'Paradise', fine jewelry and watches, LCD televisions, photo cameras and other electronic devices, sports equipment and so much more...

## Literature

# Glass Filter Media

HEAVY ITEM

- Improves water clarity
- Removes particles as small as 5 microns
- Pay back period of less than 12 months
- Reduced chemical usage
- Less wastage of heated and treated water
- Resists bacterial contamination

- Longer lasting (no need to replace every 5 years)
- Chloramines greatly reduced
- 50% less water required to backwash
- 10% less media required than sand

## 25kg Bags

# Elecro Generation 2 Titanium Heat Exchangers

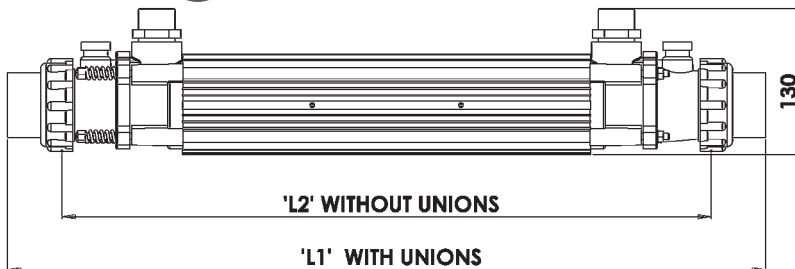

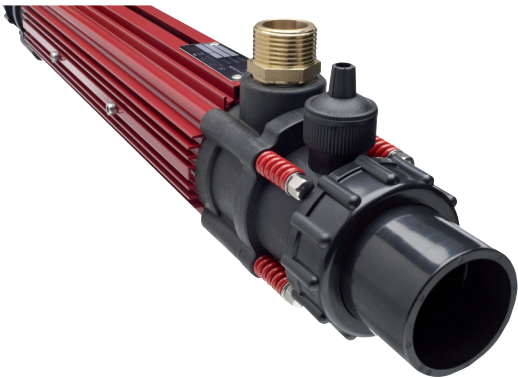

- Robust, durable construction
- Wall mountable (bracket supplied)
- 316 stainless steel shell with special polyimide fittings
- 37 piece Titanium internal tube bundle
- For indoor or outdoor pools
- Thermostat Pocket
- Solvent weld unions for connection to rigid pipe 1.5"/50mm connections
- Suitable for salt, chlorinated and solar heated pools

## Generation 2 Titanium Heat Exchangers

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
H G2-HE-30T	30kW (102,000 Btu)	315.00
H G2-HE-49T	49kW (167,000 Btu)	390.00
H G2-HE-85T	85kW (290,000 Btu)	490.00
H G2-HE-122T	122kW (416,000 Btu)	670.00

These heat exchangers come with a 3 year warranty.

The G2 Heat Exchanger has been designed to allow the installation engineers to select which way to plumb the primary and secondary water to achieve maximum thermal gain. This is achieved by rotating the primary (hot) flow in an opposing direction to the secondary (pool) water.

Titanium Tube Bundle Product Code	Standard Power Output	Dimensions 'L1'	Dimensions 'L2'
G2-HE-30T	30kW (102,000 BTU)	540mm	426mm

## Horizontal Accessories

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K HCH100	Winter Cover for Horizontal HeatSeeker	69.00
K HSE500	HeatSeeker Bypass Kit	73.20

Model	Pool Volume
5.6kW	20m <sup>3</sup>
9.5kW	35m <sup>3</sup>
12.5kW	50m <sup>3</sup>

Recommended maximum pool volume for HeatSeekers

This sizing chart assumes that a pool is being heated from May to September, the desired pool temperature is 29°C, the ambient air temperature is not less than 15°C and a heat retention cover is used.

Model	Running Current	Start-Up Current
5.6kW	3.6 Amps	15 Amps
9.5kW	8.8 Amps	35 Amps
12.5kW	11.6 Amps	46 Amps

**i** It is strongly recommended that checks are made in relation to starting amps and load requirements for these machines.

HeatSeekers come with a 2 year parts and labour warranty. 5 years warranty on the titanium heat exchanger. 12 months parts only warranty on all units sold out of the UK mainland.

HeatSeeker is a registered trademark of Plastica Ltd.

# HeatSeeker™ Vertical Heat Pump

- Proven reliability
- Remote digital control panel
- Titanium heat exchanger
- High efficiency compressor
- Self diagnostic
- Fully programmable
- Quick and easy installation
- Strong steel casing
- Very quiet operation
- Reverse cycle defrost
- Bypass kit contains all fittings required including pipe and glue
- Soft start models typically lower startup amps by at least 50%

## Relax Pool Dehumidifiers

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K RDW030	▲ Relax Pool Dehumidifier (3L/H)	2495.00
K RDW043	▲ Relax Pool Dehumidifier (4.3L/H)	2865.00

### • High efficiency

Dehumidification volume of Relax Pool Dehumidifiers reaches up to 4.3 Litres per hour (30°C ambient temperature and 80% relative humidity).

### • Epoxy Fin Air Exchanger

Specially designed Epoxy Fin Air Exchanger for optimum performance and anti-corrosion, ensuring a longer working life.

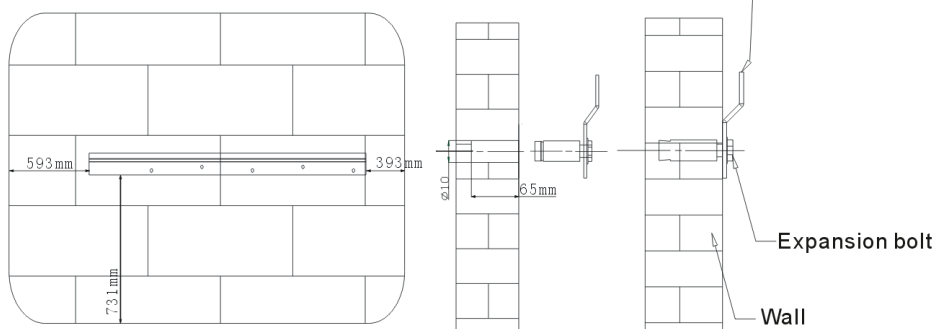

### • Super silent running

Relax Pool Dehumidifiers use DC fan motors for air circulation, producing less than 48dB, making the unit incredibly quiet.

### • Sleek, ultra-thin casing

With compact inner structure, Relax Pool Dehumidifiers feature ultra-thin casing of 200mm, requiring minimum space in the pool room.

### • Wall mounted (see diagram)

# Thermecro Evacuated Tube Solar Heating Systems

Thermecro Evacuated Tube technology converts 92% of solar radiation into heating your pool water.

Thermecro is built to last, constructed from materials such as Titanium and Polymer alloys, it has been engineered to withstand the harshest of climates.

Thermecro's integral ground support frame, pre-fitted solar controller and PEX pipe kit insures that installation is both fast and hassle-free.

- The most efficient way of harvesting the sun's energy
- Absorbs 92% of radiation that strikes the collector
- Achieves significantly higher pool water temperatures than alternative solar collectors
- Delivers heat regardless of ambient air temperature
- Will heat your pool even on cold but sunny days
- 3 year warranty

Thermecro has been designed to maintain a pool temperature of 28° - 29°C during a typical UK summer (June to September). A secondary direct heat source is recommended to help achieve desired pool temperature as quickly as possible at the start of the pool season and during periods of inclement weather conditions.

System includes everything you need including Solar Controller, Interface Valve, 30m of PEX pipe and fittings.

# Elecro Titan Optima Plus

Pumps, Filters  
& Heating

- Easy to install
- Safe, robust and reliable
- Easy touch screen programming
- Floor or wall mountable (bracket supplied)
- Digital water flow signal – no pump interlock required
- Full Titanium construction, flow tubes and heating elements – zero corrosion guaranteed
- Dual cascade wired Schneider Electric contactors on each element bank
- Digital timers for staged energisation (soft start)
- Optional Titan Optima is designed to be used in all pool chemistry applications including sea water.
- 100% operational efficiency throughout product life
- Unit can be vertically wall mounted (brackets supplied)
- 3 year warranty

# PoolSmart Plus Digital Controller

NEW FOR 2017

- BMS Building Management System Integrated ready
- Priority of heating, takes control of the circulation pump to ensure the perfect pool temperature is always maintained
- 24-hour programmable time clock
- 0°C to 45°C required temperature range, with 0.5°C differential
- Diagnostics display
- 3 year warranty

Options:

PSPC-HE – Will control all Elecro G2 & SST heat exchangers (supplied with 1m flow switch and 1m temperature sensor that fit directly into ports on our products)

The PPC-1.5 – Will control any heating appliance from any manufacturer – this is supplied with 3m flow switch and 3m temperature sensor that are pre-fitted into a 63mm ABS T-Piece and supplied with 1.5” reducers

## Solar Pod™

- For above ground pools
- Compact size of 580mm x 580mm
- Coil made of strong polypropylene
- Strong transparent polycarbonate dome
- Easy connection
- Connect multiple units for larger pools
- Works with existing pool pump\*
- Minimal tools required (Philips screwdriver and silicon lubricant)
- Tilts to achieve best angle for sun
- No servicing required (other than winterising)

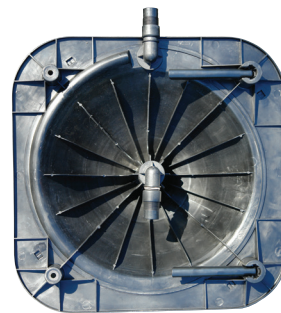

- Solar Pod includes:
- 1m and 0.36m hoses
  - Main base with stand
  - 1.25" to 1.5" hose reducer
  - Collared tube adaptor
  - Hose clamps
  - Side hose connector x2
  - Hose ID 38mm
  - Clear dome
  - Solar protection cover

### Solar Pods™

DISCOUNT/ PRODUCT CODE	DESCRIPTION	PRICE EACH
K POD001	Solar Pod	95.00

K POD053	Additional Hose (Short – 375mm x 1.5")	6.35
K POD054	Additional Hose (Long – 975mm x 1.5")	16.80

Note: For use with Intex standard filtration you will need to purchase 1.25" hose (see page 163).

Note: The heating efficiency of Solar Pods is directly related to climatic conditions. Plastica cannot guarantee that solar heating will maintain a constant pool temperature and recommend installation of a secondary heat source.

Solar Pod Accessories Kit – POD051

Note: Any more than 3 Solar Pods should be plumbed in parallel.

## Solar Pod™ Plus

- For above ground pools up to 9,000 litres
- 780mm x 780mm x 450mm
- Coil made of strong polypropylene
- Strong transparent dual polycarbonate domes
- Easy connection
- Connect multiple units for larger pools
- Works with existing pool pump\*
- Minimal tools required (Philips screwdriver and silicon lubricant)
- Tilts to achieve best angle for sun
- No servicing required (other than winterising)
- Reflective underside for optimum heat gain

- Solar Pod Plus includes:
- Hose ID 38mm
  - Main base with stand
  - 1.25" to 1.5" hose reducer
  - Collared tube adaptor
  - Hose clamps
  - 1m and 0.36m hoses
  - Side hose connector x2
