# Solar Covers

Made in the UK

Points common to all Solar Covers:

- Covers are invoiced to the nearest sq.m.
- When calculating cover prices round up to the nearest square metre
- Covers come complete with a Solar Protector Sheet to be used when the cover is off the pool
- Covers are made oversized
- Non-hemmed covers are rectangular to be trimmed on site
- Covers over 12m should be fitted with reinforcing and a leading edge
- All covers fitted with a Commercial Leading Edge will be rolled and could therefore incur a Commercial Carriage Charge. All other Solar Covers are bagged.
- Hemmed covers must be ordered using the form provided in the Plastica Forms booklet

To convert from sq.ft to sq.m. multiply the sq.ft. size by 0.0929

Over 90% of a pool's heat is lost via the water surface; this can be considerably reduced by using a heat retention cover

- Reduce humidity levels
- Reduce the need for heating and ventilation
- Installs on most pool types including free-form pools
- Covers should recoup their costs from energy saving within twelve months
- Covers over 12m should have reinforcing and a leading edge
- Covers are despatched in roll form
- Packaging adds approximately 150mm to cover width
- Perfect lay flat of this material cannot be guaranteed
- We work to +0.2% and -0.5% accuracy of any dimension

## Debris Cover Repair Service

Covers needing repair should be returned during the 'off-season' (before the 1st August). We are unlikely to be able to repair covers between the months of September and November.

The cover should be clean and dry with all springs removed.

Should you choose not to proceed with a repair or order a replacement cover, a fee of £65 will be charged.

# Non-standard Size Winter Debris Covers Pricing Formula

Find the diagram or description that corresponds with your pool shape.  
 Follow the calculation method to find the Chargeable Area to the nearest sq.m.  
 Multiply the Chargeable Area by the cover price, then add any necessary shaping charges.  
 Debris covers are calculated as pool size plus 0.6m (0.3m or 1' overlap to every side)
