Premium Wooden Pool Kits

We appreciate that customers require the freedom to specify exactly what they need with their wooden pool. Now each pool can be customised to suit the customers needs, making it easier to up-spec to a top of the range piece of equipment that can be enjoyed for years to come.

We have listed what we regard as essential components and optional extras. On top of this, individual product discounts apply, which is great news for our customers. We can still offer wooden pools we have listed in previous years or bespoke wooden pools - just call us for more information.

For the full range go to www.plasticpools.net

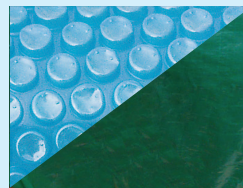

It is important to read through each option to see what comes with each kit, as most of the equipment has been separated.

FREE

England and
Wales
mainland

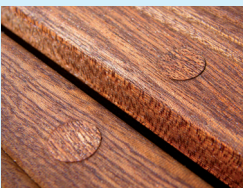

All our Structure Kits contain the following:

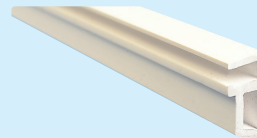

A robust timber structure - Using 44mm pressure treated redwood timber, which is all selected from renewable sources. Included are all necessary timber supports and fixings, along with an external wooden ladder and internal Stainless Steel ladder.

Summer Solar Cover and Winter Debris Cover - (Standard Debris Cover unavailable for Chelsea)

An exotic two piece hardwood top shelving - Featuring our own reversible bespoke profile, designed to make fixing as neat as possible using our plug and pellet hidden fixings.

Side mount Liner lock - Ready to receive your choice of liner.

Metal braces - For pools that require metal braces these are included in the structure kit. On premium pools, these are cleverly boxed in to keep the wonderful timber aesthetics.

Foam and Felt underlay - Giving our tailored liners a beautiful soft touch as well as added protection, complete with spray adhesive and underlay tape.

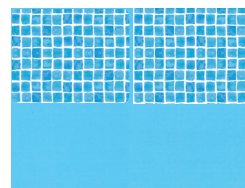

White goods kit - Wide mouth skimmer, return and low level suction where appropriate.

Above
Ground

Filtration Kit - We recommend our super reliable 0.75hp iflo pump and filter package, as well as Essential Plumbing Kit to complete your installation. (Extra fittings available if plant situated away from pool)

Upgraded Endurance 1hp Pump plus 24" filter & Essential plumbing kit including 2 main drains for the Chelsea wooden pool.

Liner options - Our liners are now priced as separate options to give you more choice and make quotations easier. Simply select the style and pattern required and add to your order. See pages 48 & 49 for liner options.

Maintenance Kit contains - Backwash hose, chemical starter kit, vac head, vac hose, telescopic pole, leaf net and brush - everything you need to keep your pool beautifully clean.

Optional extras

Heating - If you are looking to heat your wooden pool, we have specified our recommended heating methods for you to choose from.

Lighting - After a hugely successful season with the Mini Chroma Lights we have produced a complete Lighting Package for wooden pools. Available in brilliant white or full remote-control colour-change setup.

*Please note we strongly recommend equipment we have selected for each wooden pool. If you wish to upgrade please speak to one of our advisors.

Wooden Pool Dimensions

HEAVY
ITEM

When purchasing a Plastica wooden pool, you will be sure to find the help you need to build your product to a high standard.

If the wooden pool requires metal braces, you can pre order them to be delivered before the rest of the pool package you have chosen. This means you can build the recommended concrete base and position your metal braces, well before having your pool delivered. This can save you time and for smaller sites can save you working space.

The wooden structure does not require any further treatment.

On Premium Pools we recommend the use of decking oil to keep your hard wood top shelving in beautiful condition.

All pools are supplied with plan drawing laminates and a self- build installation manual.

For further technical information on Plastica Wooden Pools you can go to www.woodenpools.net. There you can find information such as Metal Brace positions, concrete base drawings, Installation Manuals and more.
