2019 CATALOGUE

ABOUT US

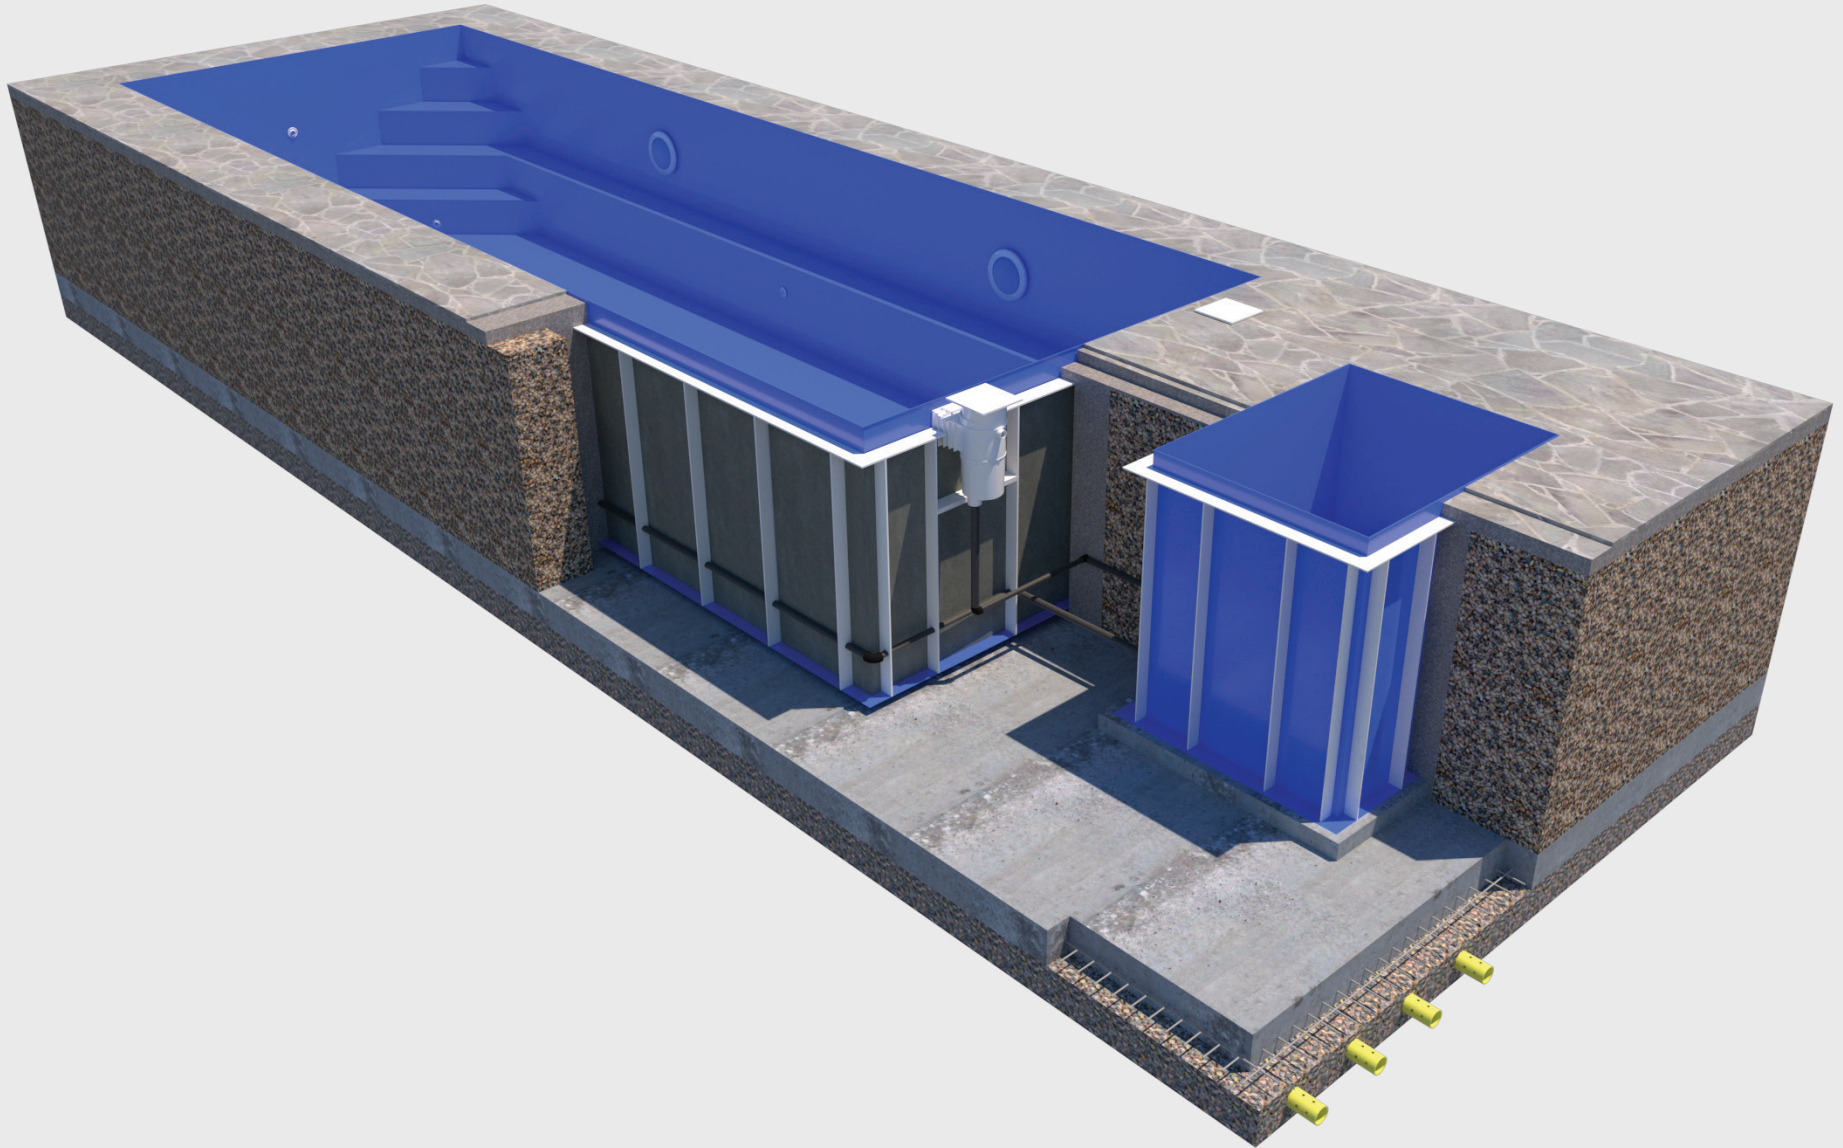

Our **Dura Polymer Swimming pools** are made from **Polymer** sheets by Rochling. The Polymer sheets are **welded by modern welding machinery**. We offer **5, 6, 8, 10mm** [Commercial] material widths. All our pools are **UV stabilized and harmless**. Our Dura Polymer Pools can either be **supplied as a one piece pool** up to a size of 10m x 3.4m x 1.5m or as large as 12m x 5m x 1.5m as an **on site Bespoke option**.

SKIMMER POOLS

We Produce.

SKIMMER POOLS

We Produce.

Skimmer Pools mean the pool water line is inside the Pool structure itself. Its is determined by the height of the Skimmer found on the side of the pool.

Choose size and shape of the pool, suitable depth, different colors, massive range of stairs, relaxation areas, filtration boxes, accessories and others.

SKIMMER POOLS

We Produce.

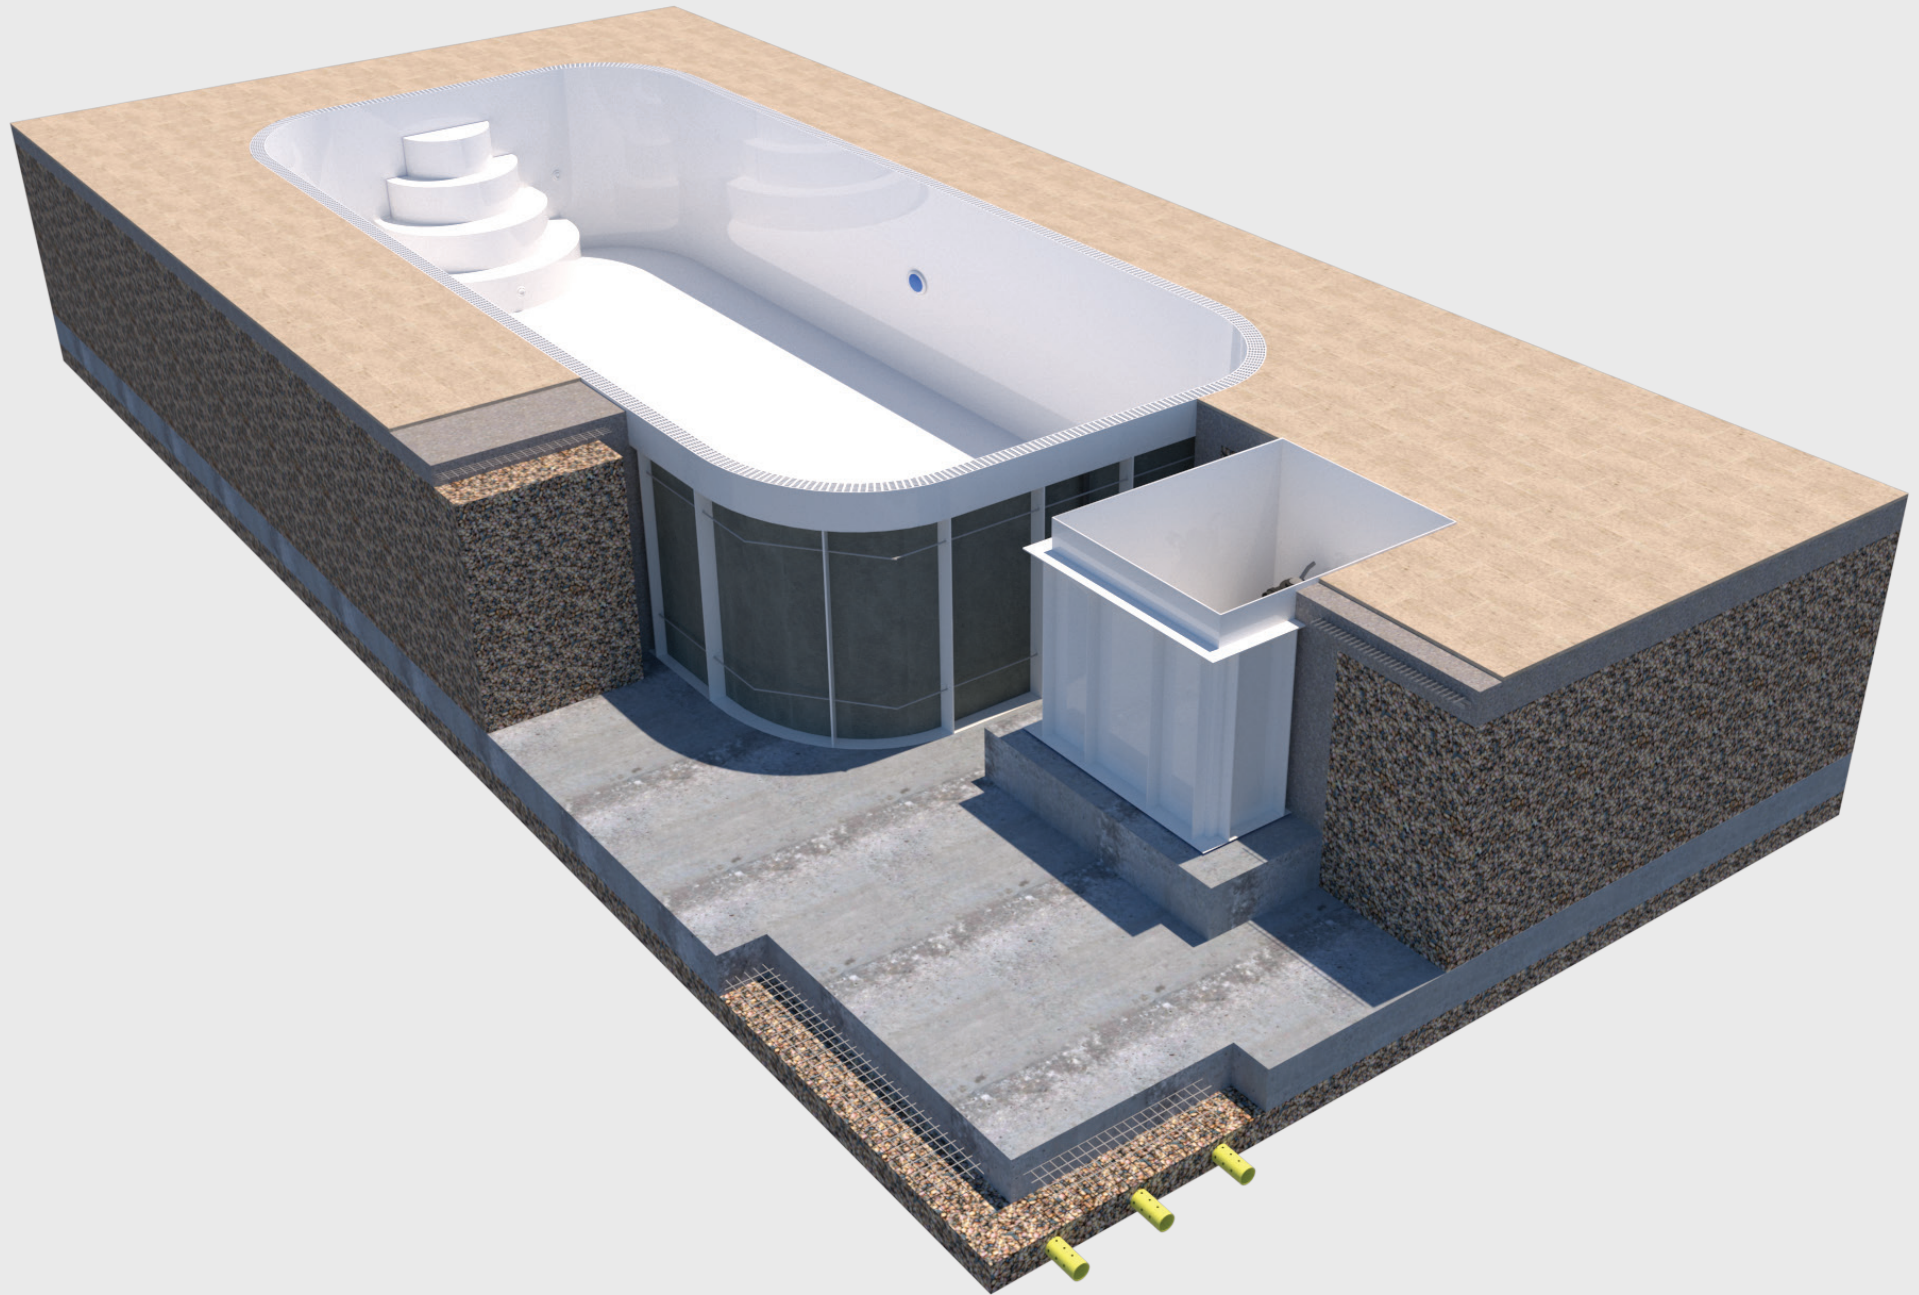

We offer a wide range of pool stairs and relaxation benches that will be customized to meet your needs. The pool stairs have anti-slip finish.

OVERFLOW POOLS

We Produce.

OVERFLOW POOLS

We Produce.

Overflow Pools are Pools we produce with an overflow channel built into the pool surround, this enables the water level to be the top of the pool and gives an infinity type effect where the pool naturally flows over the pool edge.

Choose size and shape of the pool, suitable depth, different colors, massive range of stairs, relaxation areas, filtration boxes, accessories and others.

OTHER PRODUCTS

We produce.

Our tailor-made hot tubs are manufactured with the same technology as our pools. Our competitive advantage is that your hot tub will be customised as you choose. Moreover, the technology you need to run our hot tub is installed outside the tub itself as it is placed in a separate room for ease of access and maintenance or should there be a need for repairs or disconnecting. Now, all you need is a single heat pump to serve both your pool and hot tub. The valves will help you control where the heated water will be pumped into. Or hot tubs are suitable for salt water chlorinators.

3D POOL MODEL

We provide.

We will create a 3D design of your pool so you can explore your pool before it is completed. The model will also help you and your architect in the overall design process.

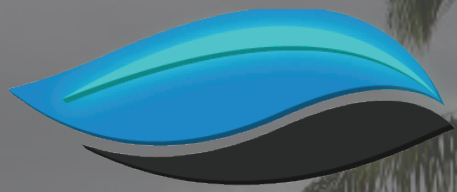

SHIPPING OF THE POOLS

We provide.

Our special trailer enables us to ship a pool sized up to 8,4 m x 3,4 m without any restrictions. For larger dimensions, oversize permit is normally required. Alternatively, the pool can be constructed on site.
