

CORAL
Glass-composite pools

Gem of your home

Glass composite pools featuring absolutely unique design and construction.

CORAL and CORAL PREMIUM

Life originated in the sea millions of years ago. That's why all of us subconsciously long for intimate, refreshing, uplifting and indescribably harmonic moments in crystal-clear water, for moments when we can savour water pleasures in a pool with all our senses. Water relaxes us for other thing and becomes a source of an entirely new life-giving energy for another.

We bring an absolute novelty in pools to you – first-rate CORAL glass composite pools elaborated in detail in terms of both construction and design, which make use of revolutionary GLASSROCK technology. Get acquainted with them and choose the one that has been created just for you...

CORAL GLASS-COMPOSITE POOLS

CORAL pools are elegant, of elaborated shape and exceptionally solid.

The compact structure of the glass composite bath [monolith] features high resistance even when subjected to increased load. The pools are made of a special high-quality and resistant original glass composite "GLASSROCK", which consists of several different layers. Their surface finish of extraordinary quality will catch everyone's attention at first sight. They incorporate integrated internal stairs with non-slip steps. A great advantage is also undemanding construction preparations as installation can take place within a single day.

CORAL PREMIUM SEMI-CERAMIC POOLS

The line of luxury CORAL PREMIUM pools inventively combines the assets of popular fibreglass pools with the modern construction elements of ceramic pools.

CORAL PREMIUM pools feature all the assets of CORAL pools and, on top of that: their construction is strengthened by 40%. Also, the structure of their wall includes a unique ceramic layer that guarantees even higher strength and maximum lifetime of the pool.

The shapes and dimensions of CORAL and CORAL PREMIUM pools are identical. It's only up to you which type of quality of the wall construction you'll go for – whether for CORAL, or for CORAL PREMIUM.
